The **Land Heritage Institute** interprets, maintains and develops 1,200 acres of open space on the Medina River as a living “Land Museum”, thereby preserving archeological, cultural, educational, historical and recreational resources for the benefit of the people of the State of Texas and it’s visitors.

Located on the south bank of the Medina River between Applewhite Road and Neal Road across the river from the Toyota Texas Manufacturing facility in “CitySouth”, the **Land Heritage Institute** in its final form, will provide the opportunity for every person in the area to visit and participate in one of the most unique environmental parks and ecotourism destinations in the nation.
